setup steps

```
#!/bin/sh
#install Epson printer TM-88 / TM-20
sudo mkdir /tmp/install
cd /tmp/install
sudo wget -O /install/master.zip
'https://github.com/plinth666/epsonsimplecups/archive/master.zip'
sudo unzip master.zip
cd epsonsimplecups-master
sudo apt-get update
sudo apt-get install libcups2-dev
sudo apt-get install libcupsimage2-dev
sudo make
sudo make install
```

Then:

- In a browser, go to http://localhost:631
- Click on the Administration Tab,
- Click Add Printer,
- Click Unknown radio button and Continue
- Enter a Name, i.e. Epson
- Click Continue
- Under Make select Epson
- Under Model select Epson TX-T20
- Click Add Printer
- Set the Media size
- Click Set Default Options
- Under the Maintenance pop up, select Print Test Page
